

BRAND GUIDELINES

Hello.

We're happy you're here

Section 1: Defining our brand

Ovation Workplace Services recognizes the pivotal role of technology in your enterprise. We equip your business to excel in the dynamic modern environment by offering an array of advanced IT solutions. Built on a bedrock of trust, integrity, and steadfast dedication to our customers, we serve as your comprehensive hub for all IT-related needs.

The Symbol

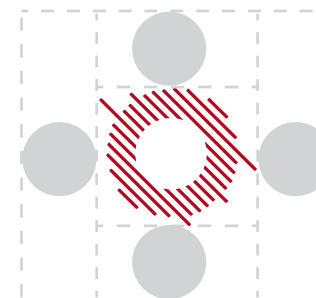

The symbol is defined by a straightforward geometric form and is rendered in one primary color. It retains clarity at different scales, including a specially crafted diminutive variant for micro uses. Moreover, the essential forms within the symbol, especially the circle, can be isolated and used independently as graphic elements.

Symbol

Our logo

The Ovation logo consists of a symbol and a logotype. The horizontal logo, being the primary one, should be employed predominantly. The logo is intended for large-scale applications. Always utilize the provided logo files and refrain from recreating them.

Our logo (for small use)

The logo should be utilized at dimensions ranging from 50px to 90px in width. For the smaller logo mark, employ sizes from 15px to 20px in height. It is important to note that only horizontal logo versions are suitable for use in these smaller dimensions.

Maximum Sizing for Small Use Logo

90px wide, approx.

(or approx. 1.25 inches)

20px height, approx.

(or approx. 0.28 inches)

Minimum Sizing for Small Use Logo

50px wide, approx.

(or approx. 0.7 inches)

15px height, approx.

(or approx. 0.2 inches)

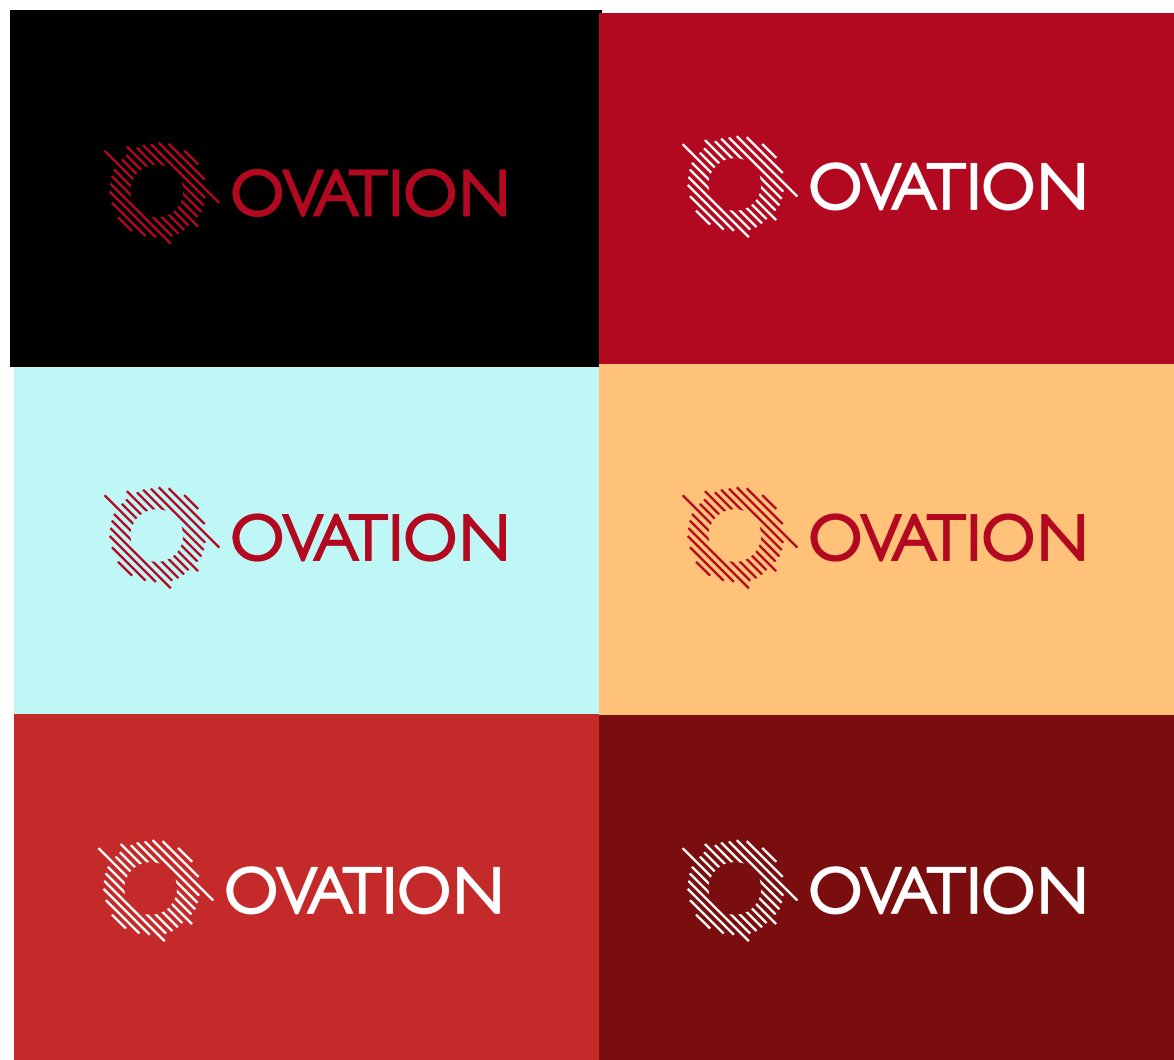

Usage on backgrounds

Full-color logos are designated for use solely on white, black, or Ovation Red backgrounds. Refrain from placing full-color logos on photographs, except when the logo is positioned over a black or white section within the photograph.

One-color use

The single-color logo is to be applied exclusively over images and color backdrops that are part of the Ovation color scheme. This logo variant is restricted to black, white, and primary colors. When an Ovation Red backdrop is in use, the preference is for the multi-colored logo. Nonetheless, should there be design constraints, the logo may be presented in white against the Ovation Red background.

Core colors

Incorporate the specified color ratios in all designs and materials. Utilize Blue, Dark Red, Red, and Yellow as highlight colors, adhering to the proportions depicted to the right. For text on primary colors, strictly use black or white as indicated on the next slide. The choice between black and white text should not be based on personal preference, as they have been selected to meet accessibility standards.

Typography: Montserrat

Ovation headlines should be set in Montserrat. For headings on both embedded and printed materials, use Montserrat with optical kerning, set the tracking to 0, and apply sentence case—avoid all caps or all lowercase. For web headings, adjust the letter spacing to -1px for smaller headlines and -2px for larger ones. When converting Google Slides to Keynote or PowerPoint, ensure Montserrat is used for both headlines and body text. For presentations created in Keynote or PowerPoint, adhere to the standard brand font guidelines.

We believe that the advantages are so great that a shift to working on Ovation, or something like it, is inevitable.

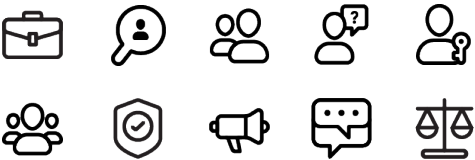

Icons

Ovation icons are integral to various brand interactions, encompassing marketing, environmental design, and product development. They offer symbolic value, conceptual lucidity, and aesthetic appeal through their simple yet expressive shapes and designs.
